

# COMMERCIAL DRONE INSURANCE SCHEME

CSP's exclusive facility for Drone/Unmanned Aerial Systems is available for Insureds based in UK, Europe or the Rest of the World. The facility is accessible for Direct Insureds, on a Wholesale basis via other Insurance Brokers or as a Reinsurance if applicable.

CSP Aviation team has over 50 years' experience in the aviation insurance sector and have an exclusive facility with Allianz Commercial, a world leader in Aviation Insurance, enabling us to provide a fast and cost effective service.

CSP's drone scheme is able to offer coverage for a huge variety of clients ranging from small businesses occasionally operating a single drone for surveying, up to large fleets flying their drones in complex missions including agricultural spraying, offshore inspections or security/emergency services.

## **Key Benefits of CSP Drone/UAS Scheme are:-**

- Fully compliant with EC785/2004 (CAA Liability Requirements)
- Coverage for Drones, Detachable Payloads and Equipment up to GBP 300,000 including malicious damage and theft (higher limits also available)
- Third Party Liability limits up to GBP 50,000,000 any one accident.
- Invasion of Privacy coverage
- Noise Liability coverage
- Premium savings available if Insureds only have limited number of drones flying at any one time
- Flexible policy periods
- Coverage can apply whilst Drones are in-flight, in transit or in storage
- Worldwide cover available
- Flexible options available for Pilots, with Open Pilot Warranties removing the need to have to name each person operating the drone on the policy
